SCHOOL BUSES – DROP OFF
Enter USC Campus at Gate 6, located at Vermont Avenue and W 36th Place. After passing the parking kiosk, continue straight and take first RIGHT onto McClintock Avenue. Pull over in front of the arches on the right side. Students can exit the bus with their chaperones and cross the street to the USC Viterbi Robotics Open House Check-in at Tutor Hall (RTH) Courtyard. After students disembark, the bus will immediately continue straight to the first LEFT onto W 37th Place. Take the first RIGHT onto Watt Way, and exit the campus at Gate 1, onto Exposition Boulevard. Buses must park off campus; the closest lot is Lot 2 of the Natural History Museum on Exposition Boulevard and Bill Robertson Lane (entrance). Fee is $25 per bus.

SCHOOL BUSES – PICK UP
Buses will re-enter the campus via Gate 6. Repeat the drop-off directions, and pull over to the right in front of the arches of the Gerontology Building. Students will board buses on the same side of the street as they are dropped off. NOTE: There can be no buses waiting for students on McClintock Avenue, so drivers and chaperones will need to communicate to one another about pick-up times.

CARS – Parking Options
Parking closest to the Check-in Courtyard can be found in the Natural History Museum parking Lot 3, located one block south of the USC campus and the Metro Expo line at Exposition Blvd. and Bill Robertson Lane (enter from the Lane); after parking, just walk across Exposition Blvd. and enter the USC campus at either Gate 1 (Watt Way and Exposition Blvd.) or at Gate 6 (Vermont Avenue and W 36th Place) – see the School Bus map (above). USC Parking Structure 2 (PS2) is also available for the Open House, enter PS2 on the east side of Figueroa Street to find the lot behind the Radisson Hotel; walk to the opposite side of campus to the Check-in Courtyard at Tutor Hall (on McClintock Ave.)

The fee for cars parking at either lot is $10.

The other parking structures on campus are more likely to be full on April 10; metered street parking is limited, especially since Thursdays are street cleaning days (so be sure to look at signs restricting street parking to avoid tickets).

Public Transportation is also recommended. Metro routes serving USC can be found on the USC Transportation page (http://transnet.usc.edu/public_transit/mta_routes.aspx)
